

Feature Focus:

Company Credit Scoring

Monitor current credit scores, sourced from various official sources, to manage risks and inform business decisions

Key Benefits

Continuous credit monitoring

Accurate and up-to-date information delivered within six working days about 365 million private and public companies, enabling effective risk mitigation.

Make informed decisions about trading relationships

Secure decisions based on trusted data to ensure financial stability in your supply chain.

Efficient global credit comparison

International score allows comparison of different companies across the globe, ensuring peace of mind.

Faster, Smarter, Safer

How It Works

Step One

Connect to a company anywhere in the world using the REG Network

Step Two

Information taken from 9,000 sources; including Companies House, Federal and Domestic Gazettes

Step Three

Data is created into a credit score

Step Four

Credit scores are reported clearly, coherently and consistently regardless of geography

Step Five

Continually monitored and re-screened to ensure reliable and current risk assessments

Credit score

Universal credit score	✓	A
Score description		Very low risk
Local credit score		85
Local credit score range		1-100

Effective Risk Assessment

Score Band	Description	
A	Very Low Risk	Proceed with transaction - offer extended term if required
B	Low Risk	Proceed with transaction
C	Moderate Risk	Proceed with caution and monitor closely
D	High Risk	Request assurances before extending credit
E	Not Rated	Insufficient information to assign a risk score

Financial Security

Avoid financial failure in your distribution channel

Credit Score & Limit

See a company's credit score and maximum credit limit

Current & Historical

Compare current and previous scores to understand if a company is growing and financially stable

Power and Protect

The suite of features in the REG Network put you in control of counterparty risks and relationships. Faster onboarding, smarter assessment and safer oversight empowers you to build business.
